

COLINEAR ANTENNAS

UHF Colinear Ground Plane antenna suitable for the base station service covering the frequency range 843 to 893 MHz (868 MHz european band). The main whip and the radials are made of 17/7 PH stainless steel and its base is of chromed brass to get the best robustness. Easy to fit, it is suitable for a handy installation everywhere.

Impedance	50 Ohms
Frequency	Typ : 868 MHz (843—893 MHz)
Polarization	Linear Vertical
Radiation	(H-Plane) 360° Omnidirectional
VSWR in bandwidth	1.8 Max
VSWR @ res Freq.	1.2 Max
Max Power	50 Watts
Connector	N (Female)
Material	Stainless Steel, Aluminium, Chromed Brass
Height (approx)	625 mm
Weight	700 gr
